

## 2012 Race Radio Rental Program

The ACA has partnered with Sunny Communications to make race radios available for rent through the ACA Race Kit in Lafayette, CO. Below is an outline of the process for radio check out / check in and what is available in the kit.

1. Promoters should decide what their radio needs are for their event.
2. Inform the Race Kit Coordinator, Lane Miller, of your race kit AND radio needs well in advance of your event.
3. When you check out your race kit items, your radios will also be checked out.
4. You **MUST** supply a valid Credit Card (an impression will be kept) as a deposit in addition to the race kit deposit.
5. You **MUST** supply a check made out to ACA for total rental fee in order to checkout. This cannot be included in your race kit deposit check.
6. Handhelds come uncharged in cases with chargers and spare batteries. **PLEASE REMEMBER TO CHARGE YOUR RADIOS BEFORE RACE DAY!**
7. All radios are programmed with 3 channels: 1 for regular traffic, 1 special use for Officials, 1 special use for marshals.
8. After your event, check the radios back in when you return the race kit.
9. Any damages will be charged to the credit card on file by Sunny Communications.
