

I am running for office with the intention to keep the momentum alive for the Women's+ Racing Initiative.

I am fairly new to cycling community and join this awesome collection of riders with an experienced triathlon background (but not the typical triathlete attitude!). I bring a fresh perspective, website experience, positive attitude, and endless optimism with me as I grow as an athlete in the cycling community. My first cycling-only adventure was with the KHMTT series in 2017. I signed up as a racer and also volunteered for the entire series. From my first pre-time trial race orientation ride with COBRAS, I found the attitude of the Colorado cycling community welcoming, vibrant, considerate, and energetic.

I want to help women across Colorado - from our juniors to our masters - maintain a healthy lifestyle that combines fitness, family, and friendly competition. I would work diligently to maintain the spirit I felt at my first cycling event within the community while I take on new challenges to enrich our women's+ cyclist.
