WHITE LIGHTNING

All riders who pre-register for the entire series will receive a series race number, will only fill out one release form at the first race, and will have a separate check in line each week. Riders who pre-register for a single night of racing will receive their number for that race only and will have to fill out a release every week. Day - of registration will be dependent on the number of series riders and single night pre-registered riders. For example: if there are 50 series registrants for the Men C category, then there are 50 open slots each week. If 25 riders pre-register for that single race then there are 25 open slots for race day registration. So, save yourself some time and register for the entire series!
